What to expect?

NO random strangers in your business

NO need to find the perfect picture or filter

NO comments or unsolicited advice

NO forever history - post disappears in 10 hours

YES to letting your people in on stuff

YES to being free in your expressions

YES to sharing without replies

YES to just splashing your thoughts

How Splashing works

Open App

Post a Splash

Set up your profile using your phone number, name (as you want to display)

Get access to Splashes made by people in your contact list instantly

Get access to Splashes made by people in your area (city) with most reactions

Option to include profile pic and set notifications for new Splashes and reactions

Options to block your Splash views for 3 Users from your contact list

User types Splash without adding images, music, special symbols.

Splash is instantly posted and included in the feed of the User's contact list

If Splash gets enough reactions from Users in your contact list it may move up to the list of Splashes posted in the area (city)

Monitor activity

Get reactions

User can browse and react to Splashes made by Users from their contact list and area (city) list

User gets notifications when new reactions to his Splash appear

User may get notifications when one of the Users from his contact list posts a new Splash

Why Splash?

01 Set emotions free

Type your feelings away without holding back, share your thoughts when you have them

04 No maintaining accounts

You don't have to keep a story, every day you can post new Splashes and no one will see all of them at the same time in one place, new day new splash

02 See how common are your thoughts

Don't think you're alone in your time of greatest joy or during hard times

03 Imply without hesitation

Want to make yourself heard without directly offending someone - voice up your opinion in a general way

05 Get your information across quickly

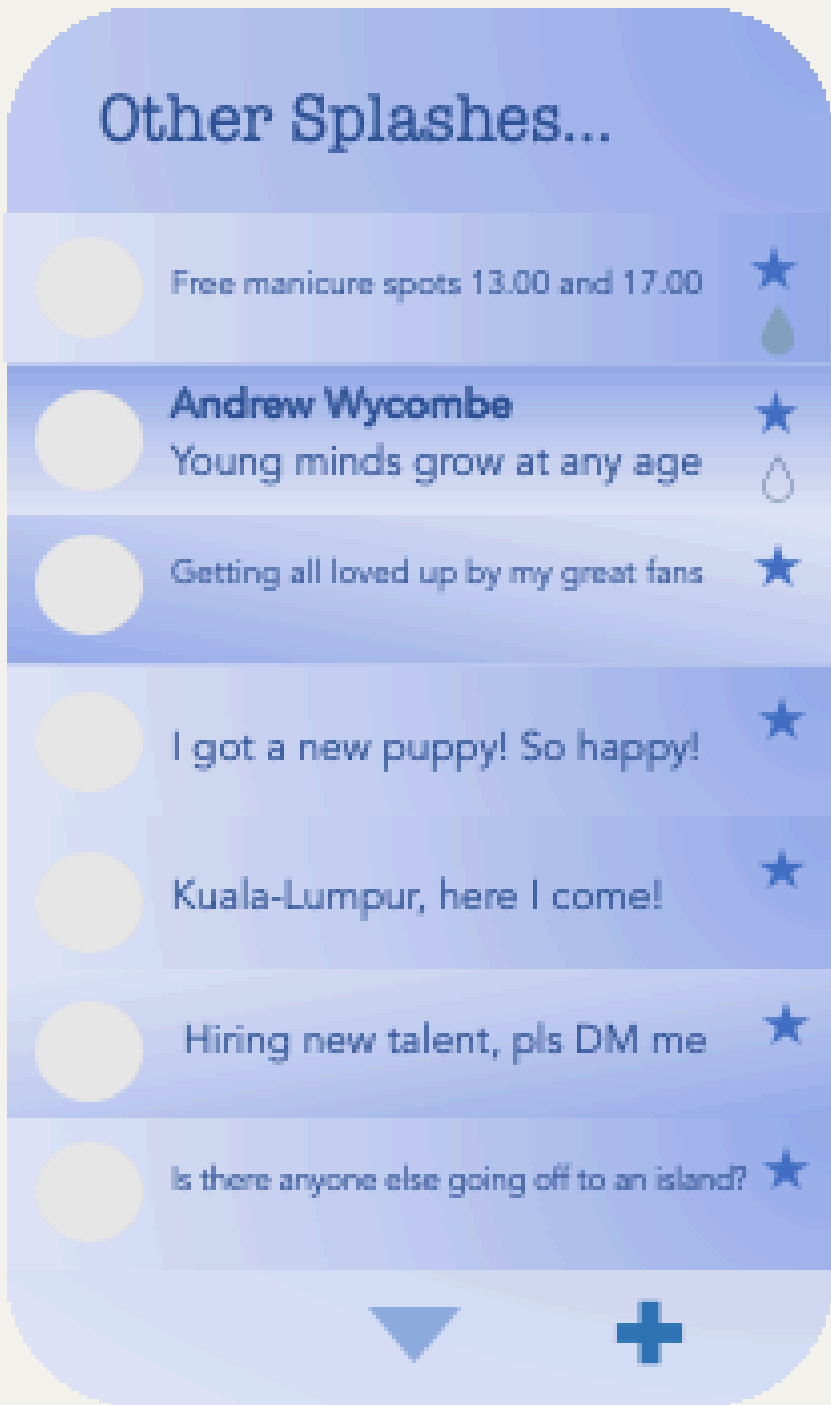

Want to share something quick? Just splash it and it instantly appears in your contacts feed, no need to better phrase it, include images or calculate best timing
